Internal Demo-20261103_231451-Meeting Recording

3 November 2026, 06:14pm

23m 20s

◉ **Usman Zahid** started transcription

Bhaumik Dhandhukia 0:03

Store store will be actually pre-populated based on flowing selection and apply to all stores can be at the bottom.

UZ **Usman Zahid** 0:08

Okay, go.

Yeah.

Okay.

Bhaumik Dhandhukia 0:13

Ethan.

Best, everything looks good. Uh, place them and send to place them and send to supply folks for approval.

UZ **Usman Zahid** 0:24

I will map it with it on.

Bhaumik Dhandhukia 0:25

Home.

UZ **Usman Zahid** 0:28

Then, may next order placing for store owner.

S.

Bhaumik Dhandhukia 0:40

This is.

Yeah.

So, based on what I call is, we had analytics or a automation flow, this may have a

budget.
But, again, that will be covered earlier.

Usman Zahid 1:03
Or, yeah, basically, we are showing the minimum price, store vendor price are here, backend prices, minimum show minimum pricing.

Bhaumik Dhandhukia 1:11
Mhm.
Lugs.
Mhm.

Usman Zahid 1:23
Fill whatever order policy one selected one by one by one are already select key hour or you may have monthly budget cap or monthly budget remaining key.

Bhaumik Dhandhukia 1:30
1.
Got it.
Actually, orders used this month is based on this particular card.

Usman Zahid 1:41
Particular card for this particular store overall for over one month.

Bhaumik Dhandhukia 1:43
Ohh.
So, it means consider one by one.

Usman Zahid 1:53
One by one, may see quarter already many users a place, then it will.

Bhaumik Dhandhukia 2:02
No, that's okay. So that's perfect. That's okay. It's okay notification.

Muhammad Basit Munir 2:10

Is gonna Usman, I think you have been on bolding a K. Order used one by one simple like banner type will require can you simplify K. You have reached your limit.

Usman Zahid 2:21
Take care.
Take care.

Muhammad Basit Munir 2:28
Say, other use this month, budget could be.

Usman Zahid 2:29
Yeah.

Bhaumik Dhandhukia 2:34
Yeah, but this is good, like Usman is one by one particular user already, basically particularly one by one order, right?

Muhammad Basit Munir 2:36
Mm.

Usman Zahid 2:36
Take care.
Ohh, okay.

Bhaumik Dhandhukia 2:48
Okay.
Alright, so, so we should not allow them to proceed to checkout, but yes, we are allowing them to order.

Usman Zahid 2:57
Proceed, or you have a place order queue per iska approval, order policy maker up cheque mentioned it is a fulfil and then I would drop down block them at checkout, checkout, but approval approval.

Bhaumik Dhandhukia 2:57

To that.
Mhm.
So.
Now, the thing is, like, we should not allow, like, it's it's matter over budget, yeah, block blockage, basically block either, so actually my vendor supplier order information third point sending to supplier.
This case, my order supplier, Alyshia backend, if that makes sense.

Muhammad Basit Munir 3:45
Sending for approval.

Bhaumik Dhandhukia 3:48
Exactly, yes, something like that, yep.

UZ

Usman Zahid 3:48
Chicken.
Take care, can be backend based block at checkout name over this order place or block at checkout.

Muhammad Basit Munir 3:53
Or...
And.
Sending for approval confirming your order AB store order confirm auto approve.

UZ

Usman Zahid 4:10
A woman T.K. local way to see a minute time draws a later, so that's why it's showing loading here.

Muhammad Basit Munir 4:14
Mm.

Bhaumik Dhandhukia 4:17
Is this because it's placing an order with Amazon or Brand Int?

UZ

Usman Zahid 4:21

G.
Somebody count.

Bhaumik Dhandhukia 4:28
We shouldn't allow them to order, like, place an actual order, but we should just mock an order, right? And the extra information there is a supplier, confirming your order, sending order for approval, and then...

UZ

Usman Zahid 4:42
Take care.

Bhaumik Dhandhukia 4:47
You can just show them this particular page. That's it.

UZ

Usman Zahid 4:50
Tigger.

Bhaumik Dhandhukia 4:51
But, actually, one.

UZ

Usman Zahid 4:56
Ma'am.
Man, would you block it at checkout, fella?

Bhaumik Dhandhukia 5:00
Ohh.

UZ

Usman Zahid 5:02
Max in order policy update curve.

Bhaumik Dhandhukia 5:13
Hey, just a one by one, right? So, from the free checkout, click here, so checkout page, you could notice particular order.

Usman Zahid 5:21
Three, two, more than them.

Bhaumik Dhandhukia 5:24
OK, so please send the other.

Usman Zahid 5:26
For example, order policy, select them, block them at checkout, or click on apply all stores, or...
Like second year.

Bhaumik Dhandhukia 5:41
Yeah, but actually notice proper can say right, but we need to show them the notice and then let them move forward.

Usman Zahid 5:44
For volume.
Me.
Thank you.

Bhaumik Dhandhukia 5:59
So, we, what we can do here is, like, this one, just notice some, so it pop up, yeah, order to be placed over supply Manager get through approval, because the store is already over budget, you know, something like that.

Usman Zahid 6:02
I.
Jake.
Yeah.

Bhaumik Dhandhukia 6:15
And once they click OK, then you allow them to go to checkout or something like that.

Right, so either way, so you do order on a place, Tahir, which was, hold on, hold on, hold on.

Usman Zahid 6:28
Mhm.

Bhaumik Dhandhukia 6:33
We are not going to block them, right?

Usman Zahid 6:33
New message.
Take care.

Bhaumik Dhandhukia 6:38
I didn't change your first block, but I will write the block, we are allowing them to place an order, but my recommendation is go back to the cart.
OK, on this tab, let's say you have one by one, so either proceed to cheque out the click in the form of pop up.

Usman Zahid 6:59
Mhm.
Tigger.

Bhaumik Dhandhukia 7:04
Before actually showing them the checkout page, we need to show them a pop-up and we need to give them the wordings that your order is over budget. That's why this order will go into the approval process. And once the order is approved, the order will be placed with the supplier.

Usman Zahid 7:21
Audit.

Bhaumik Dhandhukia 7:22
Please confirm, right? And once they confirm, then you allow them to proceed to the checkout, something like that.

Usman Zahid 7:28
Jake.
Yeah.

Muhammad Basit Munir 7:42
This is same store window future whole month day one to day 31st whole month future November 7 to day 7 to 14.

Usman Zahid 7:45
Yep.
Mm.
G.

Muhammad Basit Munir 8:01
Just wanted to say, get out there, cheque out.

Usman Zahid 8:06
Uh, be warning.

Muhammad Basit Munir 8:10
Mm.

Bhaumik Dhandhukia 8:13
Go back to the page card page. Now, in this case, you have to buy one, right? Zero by one, and order placing here.

Usman Zahid 8:17
Yes.
I.
Approve process.

Bhaumik Dhandhukia 8:31
So, same Floor user, OK. Got it, perfect.

Usman Zahid 8:32
Okay.
And, uh, one more thing, it goes, is the Kato map go.
Regarding emails, emails dynamic, for example, this is my e-mail, so yeah, I am select user e-mail page last time e-mail trigger vendor order policy change e-mail.
Order reject, order approve, add fully dynamic.

Bhaumik Dhandhukia 9:26
Mm.
Thanks.
OK, first of all, remove Harun from Edex.

Muhammad Basit Munir 9:41
Yeah.

Usman Zahid 9:42
Get a local Dhandhukia.

Muhammad Basit Munir 9:42
Yeah, initially, when go outsource.

Bhaumik Dhandhukia 9:47
How are you?

Muhammad Basit Munir 9:50
You put it, because with the database, I think.

Bhaumik Dhandhukia 10:00
I love you.

Muhammad Basit Munir 10:03
Hopefully, Khan.
Okay.

Bhaumik Dhandhukia 10:05
We are.

Muhammad Basit Munir 10:07
Yeah.
We are, but...
Gerling is correctly in Gerling is gonna.

Bhaumik Dhandhukia 10:12
It's my removal, yeah, pull a system message, remove Kardena, or Aman Kovi completely remove Kardena.

Usman Zahid 10:18
I work with the other man.

Bhaumik Dhandhukia 10:19
Sood.
Perfect.
Alright, so can't catch you already from there. I tell you can go into the analytics.

Usman Zahid 10:35
Sure.

Bhaumik Dhandhukia 10:38
Going to the reporting.
Dashboard, right? Like, generally, yeah, yeah, yeah, yeah, yeah, um, um, could be select particular store, particular province, particular product.

Usman Zahid 10:58
Ticket all students vendor Amazon.
All store products.
Go to the time.

Bhaumik Dhandhukia 11:06
Store, like my particular store.

Usman Zahid 11:11
Store my first concept.
I'm pretty good with that.

Bhaumik Dhandhukia 11:18
Right, but England, England is in Ontario.

Usman Zahid 11:24
Ohh.

Bhaumik Dhandhukia 11:25
No, yeah, Brandon, right, so be in the province.

Usman Zahid 11:32
Province mega sector, Alberta.

Bhaumik Dhandhukia 11:34
Alberta or district, sorry, Brampton.

Usman Zahid 11:36
Yes.
Uh, course.com.
Evil.

Bhaumik Dhandhukia 11:55
Random, OK, that's good. So, this, yeah, we go real time, so yeah, so now you can select the store that you selected and province that you have ordered through, basically.

Usman Zahid 12:02
G.

Hey, second, when you're testing me here, different.
Like, let me cheque.

Bhaumik Dhandhukia 12:30

Very much.
Two.
Perfect.
I.
In my.
Are you?
Yeah, maybe.
No, no, wait, what? Yeah, hard as to I told give it the export.

Usman Zahid 12:59

Yeah, test or this one.
Okay.
Export first key, Excel report export already.

Bhaumik Dhandhukia 13:10

Okay, let's open the Excel.

Usman Zahid 13:12

Uh, very first system memo, make second.

Bhaumik Dhandhukia 13:30

So, Basit, where is Salman? Is he involved on this project or not?

Muhammad Basit Munir 13:34

No, he's in.

Bhaumik Dhandhukia 13:36

What?

Muhammad Basit Munir 13:38

This will mostly be development that's already.

Bhaumik Dhandhukia 13:42
But, developers pick put a QA, like small development, he is supposed to even test and approve right approval.
You know, Chris.

Muhammad Basit Munir 14:00
There.

Muhammad Moiz 14:04
The.

Usman Zahid 14:06
Yeah.

Muhammad Moiz 14:07
No, I think, uh, business decision.

Bhaumik Dhandhukia 14:12
I.
Couple room with it, Moiz.

Muhammad Moiz 14:18
It is a business changes and other features of I think.

Muhammad Basit Munir 14:24
Yeah, yeah.

Muhammad Moiz 14:28
Your business decisions later over.

Bhaumik Dhandhukia 14:34
Hmm, it should be actually tested by QA, test and QA, right? My some developers, developers, development, as per the requirements, and then only...
It should go at the lead level, right? That's how the flow should be, but anyway, so we

need to structure a few things here. There is no complaint with any developer, they complain with the QA, no complaint with the lead, no complaint with you, no complaint with me.

Muhammad Moiz 15:11
Mm.

Bhaumik Dhandhukia 15:15
No, it's just like we all need to structure our thing, and it's waste of everyone's time, actually.

Usman Zahid 15:18
It.

Muhammad Moiz 15:34
That's true.

Bhaumik Dhandhukia 15:36
So, yeah, we could generate over here, or yeah, Excel format. OK, so, yeah.

Usman Zahid 15:41
Excel format is spend by vendor by month or summary.

Bhaumik Dhandhukia 15:43
Hey, somebody's AB.
Beautiful.
This is great.

Usman Zahid 15:52
Our same PDFP is the answer generated on the.

Bhaumik Dhandhukia 15:58
OK, you snapshot like it all right, got it.

Usman Zahid 16:00
G.

Bhaumik Dhandhukia 16:04
Perfect, this is great.

Usman Zahid 16:09
Changes with Amazon team, separate.

Bhaumik Dhandhukia 16:18
Do we need Amazon call anymore? Do we do we have everything that we need from Amazon?

Muhammad Basit Munir 16:26
Ohh, I don't think so. Can last meeting on this first say cancel? I think we are good. Usman.

Usman Zahid 16:41
My, as such, the integration work carry end to end.

Muhammad Basit Munir 16:46
Do S in operation on this side, Piano?

Usman Zahid 16:50
I said the operations vendors map product or live production then maybe live protocols we can do that.

Muhammad Basit Munir 17:06
To.
Say, say, let me see one key meeting, so I think coffee later.

Bhaumik Dhandhukia 17:12
Hey, Khan, so hey, Basit, I would suggest you, you and Moiz go on the call. It will be

like 3 A.m. So, you guys go on call tomorrow with Amazon and collect all the pointers, right? And let's close out the Amazon calls, weekly calls, actually, right?

Muhammad Basit Munir 17:29

No.

Bhaumik Dhandhukia 17:29

So, do we dependency here? Yeah, just inform them and close out the call, because okay, I give all call gives the copy confusion, right? Please join, join, you know, so you take it over, you must take it over and tell them to cancel the call, but say, may be available initially request, but let Moiz.

MM

Muhammad Moiz 17:30

Same.

Mm.

Oh.

Bhaumik Dhandhukia 17:48

take it over. If there is a call needed with Amazon, Moiz can always request a call.

UZ

Usman Zahid 17:50

Sh.

MM

Muhammad Moiz 17:55

Say...

Muhammad Basit Munir 17:55

Okay.

Bhaumik Dhandhukia 17:56

Yeah, but finally call Adobe dependency.

MM

Muhammad Moiz 18:03

Say, okay.

Muhammad Basit Munir 18:10
Ohh, I think we are very close, but finger crossed.

Bhaumik Dhandhukia 18:18
So, great, first of all, Usman, great job, really great job, like, and we still have time till Thursday, so what we can do is, I'll inform Fiaz.

Muhammad Basit Munir 18:18
Yeah.

Bhaumik Dhandhukia 18:38
Basically, that product is ready for the UAD, but still, we have few things to finalise. So, let us know.
And then, I'm always for the for the E.V. for someone to be involved oversee they were just to go through things, and if we find something, you know the requirement already of internal suppliers.

Muhammad Basit Munir 18:58
OK, I think.
Three A.M.P. hit damn call key.

Bhaumik Dhandhukia 19:04
Demo quality.
Ave.
Ohh, yeah, the team meeting, right?

Muhammad Basit Munir 19:13
Uh.

Bhaumik Dhandhukia 19:14
Yeah, man, actually go to schedule the call earlier.
Hmm, OK, no, sure, then you need to take it over, basically.

Muhammad Basit Munir 19:28

Ohh, OK.

MM

Muhammad Moiz 19:29

I will take it over.

Bhaumik Dhandhukia 19:35

So funny.

Muhammad Basit Munir 19:35

Ohh, feedback was contact me quickly, so go over, so by is go Salman.

Bhaumik Dhandhukia 19:38

Ali.

UZ

Usman Zahid 19:38

Ohh.

Take him.

Sure, Tariq.

Bhaumik Dhandhukia 19:52

Now, go to Chodi.

MM

Muhammad Moiz 19:53

Well, it's good to blocker that it has.

It's good deployment.

Bhaumik Dhandhukia 19:58

Very good, Moiz.

Muhammad Basit Munir 20:01

deployment be complete.

Muhammad Moiz 20:03
Mmh.

Usman Zahid 20:04
Mhm.

Muhammad Moiz 20:05
Oh.

Bhaumik Dhandhukia 20:06
Mm.
The.

Muhammad Basit Munir 20:07
Feedback complete, I would suggest is gonna deploy production.

Usman Zahid 20:11
Figure.
Say to you, Teagan.

Bhaumik Dhandhukia 20:18
No, we'll deploy Karwa K. Ekbar Salman say thorough testing, or Chris Kobe may inform Karduna K. Ahsan Tabak Moiz, once you approve you, Vesa, Mary, Mary, Sri, your Christy meeting, we have to clear all their coffee, coffee complaints.

Usman Zahid 20:21
Thanks.

Muhammad Moiz 20:32
Huh.

Bhaumik Dhandhukia 20:37
Yeah, but we had to make a call yesterday, so I'm going forward, no matter what, he'll be mailing to me and Moiz, and if I'm not available, Moiz will take Moiz will be

the one replying, if I'm available, I'll be the one replying, so it'll we are also aligned there, right, but yeah.

Muhammad Moiz 20:46
Hmm.
Alright.

Bhaumik Dhandhukia 20:59
Weekly calls, so if there is anything, you know, as in technical side or integration side, we will be able to align together.

Usman Zahid 21:01
The.

Muhammad Moiz 21:09
So, again, to you.

Bhaumik Dhandhukia 21:11
Alright, T guys.
Okay.
Good luck with tomorrow.

Muhammad Moiz 21:20
Yeah.

Usman Zahid 21:21
Yes.

Bhaumik Dhandhukia 21:33
Yeah.

Usman Zahid 21:40
Good.

Bhaumik Dhandhukia 21:43
Probably of the variable.

Muhammad Basit Munir 21:44
It's one is been a it is Khalakana is my Kuichi as see nahika. Bolni ya mala Kushna hanging thing in shortly. Kiya Karlenge. Dulenge Walla Kamana. What are the express delivery? e-mail notification flow.

Usman Zahid 21:55
Take care.
Thank you.

Bhaumik Dhandhukia 22:01
How are you?
All right.

Muhammad Basit Munir 22:03
OK, by tomorrow, demo complete, is gonna I end that close, not be another thing, so on the end, but just make sure is now future.

Bhaumik Dhandhukia 22:19
The.
Mmh.

Muhammad Basit Munir 22:25
Notifications, notification, let me cheque here, notifications are a uh, vendors go supply Manager go.

Usman Zahid 22:35
e-mail.

Bhaumik Dhandhukia 22:38
Not if you're not testing pending AB.

Muhammad Basit Munir 22:38

Petty.

Hey, you again, we speak here with Bucky.

Bhaumik Dhandhukia 22:50

Yeah.

Muhammad Basit Munir 22:50

Mm.

Bhaumik Dhandhukia 22:57

When you guys like my doctor, we continue, alright, thank you.

Muhammad Basit Munir 22:58

Okay, okay.

UZ

Usman Zahid 23:01

Two.

MM

Muhammad Moiz 23:02

Thank you.

UZ

Usman Zahid 23:11

Map changes.

MM

Muhammad Moiz 23:17

Okay.

UZ

Usman Zahid 23:17

Thank you.

MM

Muhammad Moiz 23:18

Bye.
